Special Sizing Cover - Measuring Guide

1. Please Circle the number that best represents the shape of your Window Well.

1. 2. 3. 4. 5.

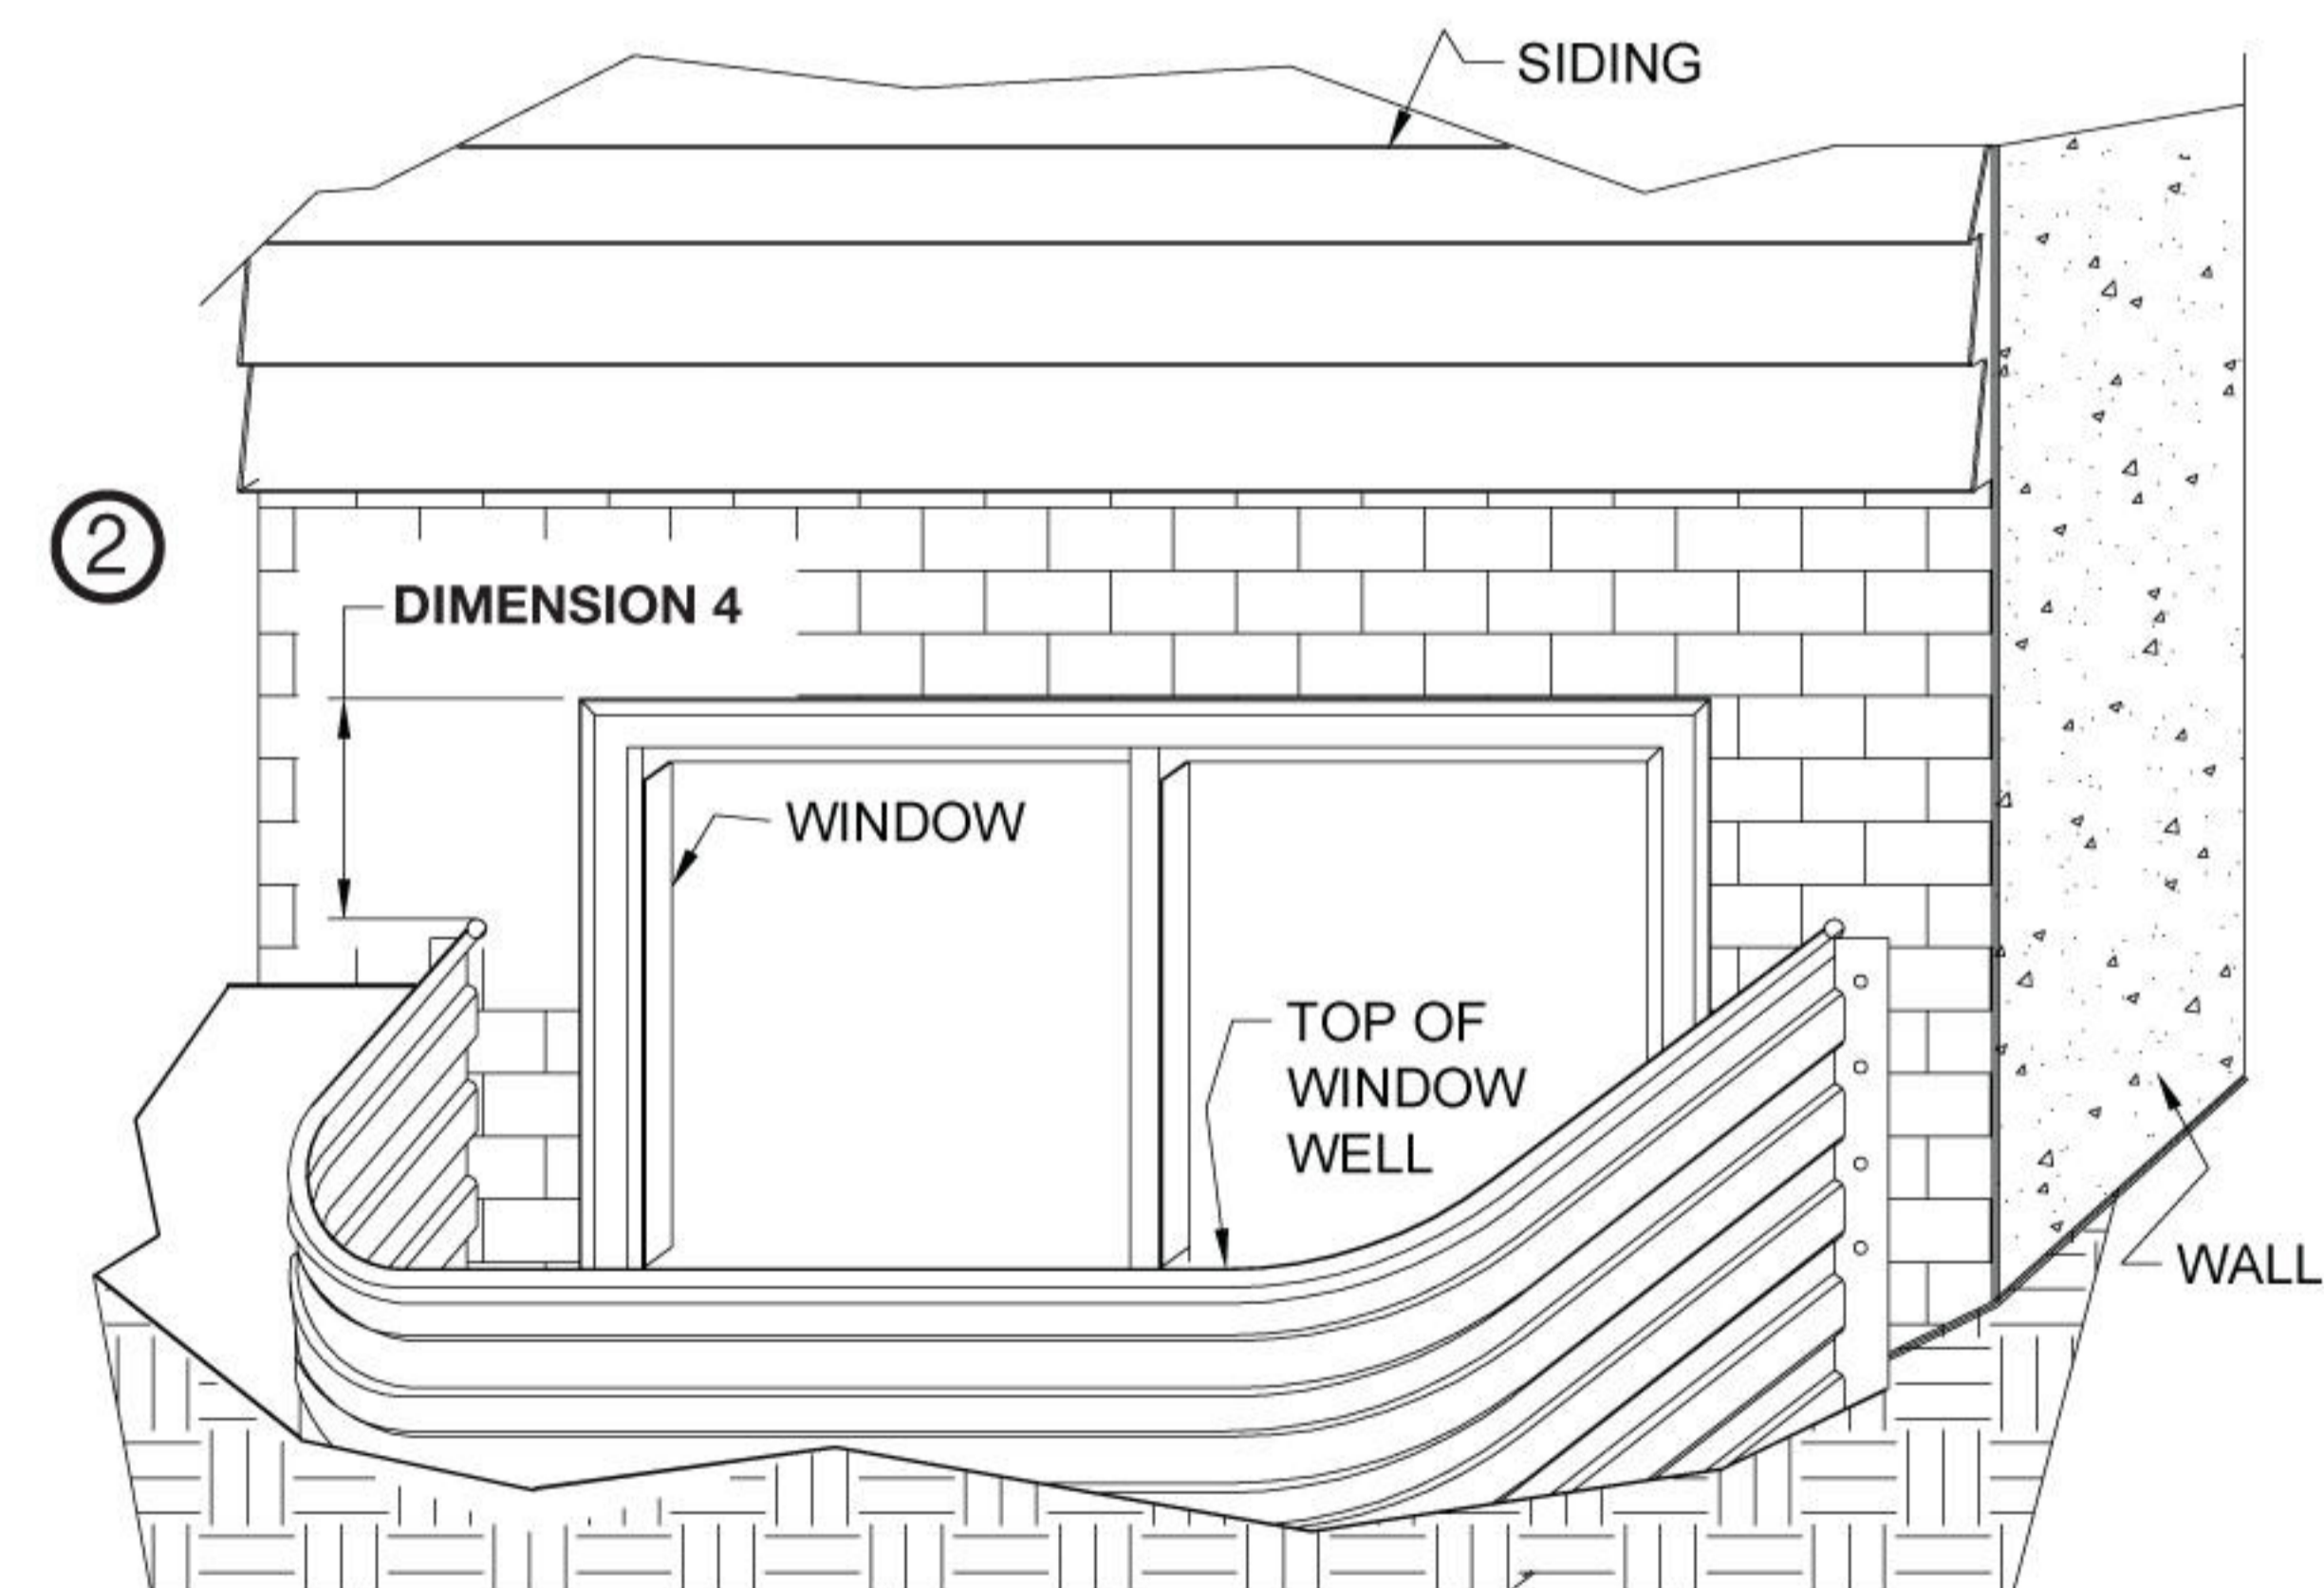

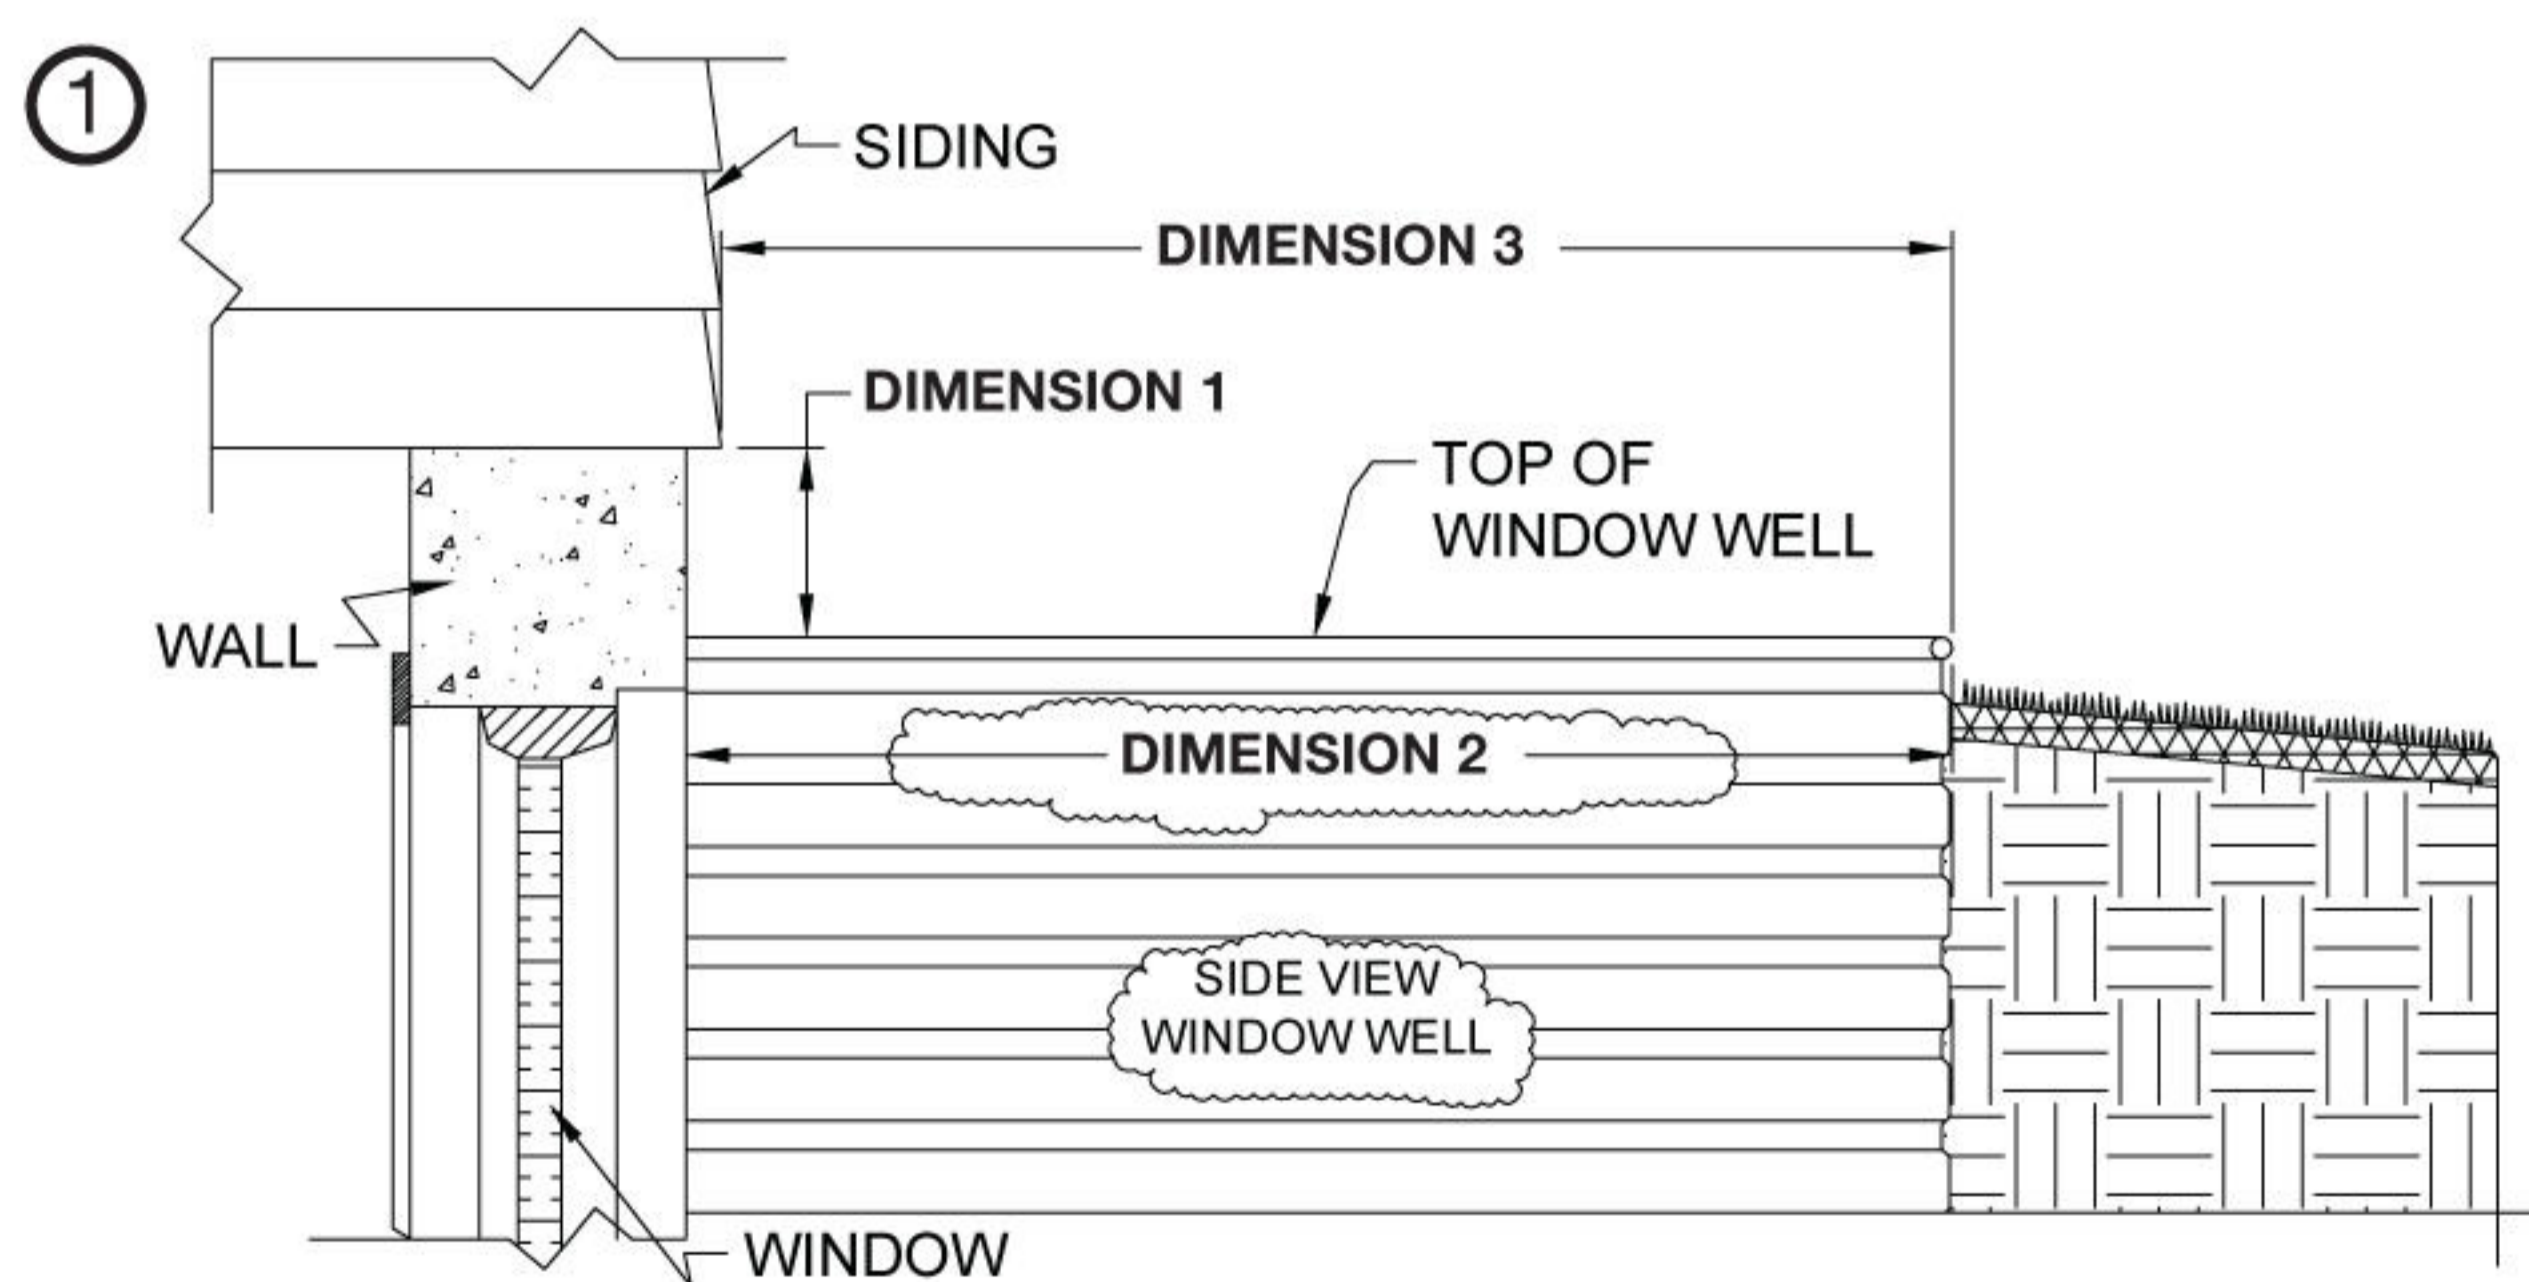

2. Measure and write down the corresponding outside measurements for your shape.

Width at House	Projection	Length Front	Diagonal	Diagonal	Width at 6"	Width at 12"	Width at 24"	Width at 30"	Section (for Shape 3 Only)			
W_H (inches)	P (inches)	L-F (inches)	D-1 (inches)	D-2 (inches)	W-6 (inches)	W-12 (inches)	W-24 (inches)	W-30 (inches)	S-1 (inches)	S-2 (inches)	S-3 (inches)	S-4 (inches)

3. Needed Measurements: Measure the distance from the top of the well to the bottom of the siding- see diagram 1 **dimension 1**. If that dimension is less than 5 1/2 inches, measure the distance from the siding to the outside front edge of the well- see diagram 1 **dimension 3**. We also need the measurement of the full projection of the well – diagram 1 **dimension 2**. If the top of the window is above the top of the well, provide that dimension- diagram 2 **dimension 4**; and note the type of the window.

Dim 1 _____ Dim 2 _____ Dim 3 _____ Dim 4 _____

Type of window (Please circle)- slider - casement - double hung

4. Please Circle color: Mill Finish Aluminum White.

5. Quantity: _____
